New Telephone System To Begin Operation Next Week

Complete Instructions Are Given By District Manager For Use of Dials

Montevallo's new dial telephone system will begin operation next Thursday, July 27, according to announcement made this week by Mr. W. C. Graves, group manager of the Bessemer office. The new system at Calera will begin operation two days earlier, on July 25.

With the changes at Calera and Montevallo, Mr. Graves states, this will put Columbiana, Calera, Montevallo, Centreville, and West Blocton, all with dial telephones, under the Bessemer office.

A large crew of men have been working here for the past month, building the outside equipment, changing lines, installing new phones, and doing the many things necessary for institution of the new system.

A new building has been erected near the Lyman home, and the central dialing machinery has been installed therein, with new connecting lines to all telephones in the city. This new central office is now ready to be switched into service when the change-day arrives.

Workmen will remain here for some weeks after the 27th to clean up old equipment, make final testings, and otherwise assure the smooth operation of the new system.

Mr. Graves expresses his happiness at the installation of dial telephones in Montevallo. "From a telephone service standpoint, it places this community on a par with the larger cities of the state," he says.

How to Use It

In future, all calls will be made by number, so you should always refer to your telephone directory for the correct number. To make a call, lift your receiver and first listen for the dial tone, a steady humming sound, which indicates that the equipment is ready for dialing. Immediately on hearing the dial tone, start dialing your number. If after you start dialing, you discover you have made a mistake, or if your finger should slip out of the dial opening before the dial is turned around to the finger stop, then hang up the receiver and start over.

Do not jiggle the receiver hook or turn the dial after you have finished dialing or while you are talking; if you do, it will cut you off and it will be necessary to dial the number again. Be sure to replace the receiver on the hook when you have finished talking.

On Party Lines

If you are on a party line and wish to call someone on the same

HARMANS ENTERTAIN SUMMER FACULTY

Dr. and Mrs. A. F. Harman entertained Monday evening, July 17, with an informal garden party, honoring the Summer School faculty.

The garden was the highlight of the evening, with Japanese lanterns interspersed among the trees. Flood lights were placed on the ground to reflect through the trees, and the fountain was playing in the pool.

Mrs. Harman received the guests in a dress of lovely cream lace.

Sandwiches, cake and iced tea were served to the guests.

DONALD WELLS ON HONOR ROLL AT AUBURN

The name of Donald Wells, of Selma, is included in a recent announcement of students who made an average above 95 in the second semester at Auburn.

Donald is a former student of Montevallo High School. His friends will be glad to see that he is continuing in college the high scholarship record which he set in high school.

Miss Mildred Stephens has returned from a trip to Miami and Key West Fla. She motored down with relatives from Atlanta.

line with you, dial the number in the regular way, but after you have finished dialing the number and hear the "busy" signal, you should then hang up your receiver. Your bell, as well as the bell of the other party on your line, will then ring. When your bell stops ringing you will know the other party has answered and you should at once lift your receiver and begin your conversation. If your bell should continue to ring, you will know that there is no one at the other telephone to answer. To stop your bell from ringing and free the line, remove your receiver from the hook for a moment and then replace it.

To make a long distance call, or to report your telephone out of order and to secure a number not listed in your directory, dial "Operator."

Jemison Trio Missing In Automobile

Clanton, Ala., July 17 — Sheriff W. G. Culp said Monday night Raymond Reynolds and Mr. and Mrs. Otto Blackman, all of Jemison, had been reported missing since July 8 in an automobile belonging to Reynolds' father.

Culp said the father, Sam J. Reynolds, reported his son, "about 21 years old," was last seen with the Blackman couple in the Reynolds family car. No word has been heard from them since that time.

The sheriff said the elder Reynolds and relations of Blackman at Jemison had been unable to give any reasons for their disappearance.

"Reynolds told me his son always had access to the car and was a quiet, well-behaved boy," Culp said.

Blackman, who the sheriff reported was "about 30," formerly lived at Waco, Texas, and at one time was employed by the Ford Motor Company at Detroit, Culp added.

The Alabama Highway Patrol has been notified and police in the nation's cities have been asked to be on the lookout for the automobile, Culp said.

Cotton Price Is Highest Since 1937

Auburn, Ala.—A combination of factors has raised domestic prices of spot cotton to the highest figures since August, 1937. Factors include the exceptionally small stocks of "free" American cotton, relatively high domestic and foreign mill consumption, improved domestic sales of cotton textiles, somewhat unfavorable weather conditions, and increased prospects for an export subsidy, according to the Bureau of Agricultural Economics.

Domestic cotton consumption of 605,000 bales in May was 40 per cent larger than a year earlier and the second largest in 10 years. Trade reports indicate that in the first half of June the seasonally adjusted consumption rate was well maintained. This was somewhat contrary to earlier expectations and was apparently due to unusually favorable sales of unfinished cloth in late April and early May.

REV. BRYAN TO SPEAK AT PRESBYTERIAN CHURCH

Rev. Harry Bryan, son of Brother Bryan of Birmingham, and a missionary to Japan, will preach at the 11 o'clock service at the Presbyterian Church next Sunday. Rev. Bryan will sing songs in the native Japanese language and other special musical numbers will be rendered. All are cordially invited to this service.

Ten-cent ice cream cones are the favorite confection of the Eskimo children in Dave Irwin's Eskimo Village at the New York World's Fair.

How To Dial

Our new dial telephones will come into use next Thursday, July 27.

Read the advertisement of the telephone company in this issue, wherein Mr. Graves, district manager, gives full and complete instructions for the efficient, successful, and satisfactory use of the new phones.

Follow his advice, don't let your finger slip, and you will have no trouble with the dial system.

Summer School Notes

Faculty Committees

Following is a list of faculty committees for the second term of summer school. From time to time announcements will be made of committee events or activities.

Convocation and Group Assembly Committee — Miss Stockton, chairman, Mr. LeBaron, Miss Allen. Personnel and Student Advisory Committee — Miss Steckel, chairman, Miss Vickery, Mr. Orr.

Social Committee — Mrs. Snodgrass, chairman, Mr. Riddle, Mr. Vaughan, Miss Claybrooke, Mr. Hood, Miss Comer, Miss Braswell, three students to be selected.

Recreation Committee — Miss Conn, chairman, Miss Gould, Miss McCall, Mr. Ziolkowski, Mr. Sanders, Mr. LeBaron, Miss Pierson, Mrs. Lamar Stephan, three students to be selected.

Campus Publicity—Miss Lawson, chairman, Miss Golson, Miss Worley, Mrs. Ramsour, three students to be selected.

* * *

Annual School of Instruction For Vocational Home Economics Teachers

The annual School of Instruction for Alabama vocational home economics teachers will be held at Alabama College July 24 through August 12. There will probably be 150 enrolled. These teachers will come from all sections of the state. Many of the group are graduates of Alabama College.

The School of Instruction is held each summer in order that the vocational home economics teachers may have an opportunity to continue training for their respective programs. Current problems facing home economics education are always given major emphasis.

The School of Instruction is under the direction of Miss Katherine Forney, state supervisor of home economics education. The teaching staff will be made up of the following people: Misses Mary Ling Hayley, Rebecca Pate, and Evelyn Calhoun, assistant supervisors, home economics education; Miss Lulu Palmer and Mrs. Mary G. Bickler, consultants, family life education; Miss Laura B. Hadley, teacher trainer, Alabama College; and Miss Dawn Kennedy, head of art department, Alabama College.

* * *

Second Term

The second term of summer school at Alabama College began July 20, with a large number of new students from various sections of the state enrolled.

Members added to the faculty the second term of summer school are: Minnie Barker, Lillian Barksdale, Mamie Braswell, Bell Comer, Eva Golson, Mrs. Dora Garrett Ramsour, Mrs. Lamar Stephan, Miss Lillian Worley.

* * *

Adult Education

Miss Martha W. Smith, consultant, community activities and adult education, will visit Alabama College campus Friday, July 21, in the interest of P. T. A. work and phases of adult education. Miss Smith is a representative of the State Department of Education, Montgomery, Ala.

BAPTIST CHURCH

Rev. Otis Williams will fill the pulpit both morning and evening Sunday, in the absence of Dr. Pearson, who will be in Atlanta attending the meeting of the Baptist World Alliance.

Business Women's Club Appeals For Aid In Fight On Tuberculosis

When you see the jars placed by the Business and Professional Women's Club in places of business in Shelby County, don't pass them up, but put in a few pennies to help stamp out tuberculosis. The only way this can be done is to diagnose the case early enough for treatment to be effective and have patients exercise care so as not to spread the disease.

The County Health Unit is doing a valuable work in giving tuberculosis tests which show whether one has ever had tuberculosis or not, and following the positive test with X-ray pictures to determine if the cases are active. The large number of cases in Shelby County makes more help necessary.

Your pennies will be used to buy film for X-ray pictures and to help pay for the pneumothorax treatment. This treatment collapses the diseased lung and by letting it rest, gives it a chance to heal. It usually takes about two years. The initial treatment must be given in Jefferson County and costs \$10, but after that it may be taken from our own machine at Wilsonville at a cost of \$2.50. Will you help give some unfortunate person a chance to get back his health?

The drive is part of the year's program of the Business and Professional Women's Clubs of Montevallo and Columbiana, in cooperation with the Shelby County Health Unit and the funds are to be used in this county.

Agricultural Group To Submit Bills To Legislature

Auburn, Ala. — Members of the recess agriculture committee of the Alabama legislature unanimously endorsed last week a proposed bill to be submitted to the legislature designed to promote the production of certified seed which, they believe, will result in better crop yields and mean a saving to the farmers of the state.

The committee, headed by Senator Howard Cooper, Brent, chairman, met here to discuss Alabama agricultural needs with representatives of the Alabama Extension Service, the Alabama Experiment Station, and the State Department of Agriculture. Another measure endorsed by the committee was a bill providing for sale of nine demonstration farms set up 12 years ago to be used in connection with agricultural teaching at district secondary consolidated high schools.

The seed bill, known as a crop improvement measure, proposes that committees of farmers be set up and empowered to lay down certain approved standards of seed production. A farmer growing seed that meets these standards would be allowed to label his seed as certified and to dispose of them in Alabama and other states. Associations of farmers, or committees, would be set up for cotton, corn, potatoes, and other crops.

Provisions of the measure would make it voluntary on the part of the farmer coming into the certified seed production business, but would prevent by penalty of prosecution the sale of seed as certified that did not meet the standards set on germination and purity.

The recess committee also endorsed for favorable legislative action laws requiring fertilizer to meet certain specifications, requiring finer grinding of lime for sale to farmers, to expand regulatory and educational work in forestry.

BASEBALL

The Wilton Brotherhood Class will play the Boy Scouts in a ball game Thursday, July 27, at Wilton. Two young ladies will be the umpires. The public is invited to see this game. You are sure to enjoy it.

Merchants To Convene In Birmingham

Two-Day Session Will Feature Speech By Governor Frank M. Dixon

Governor Frank M. Dixon will address the twenty-third annual convention of the Alabama Merchants Association, which convenes in Birmingham August 9 and 10, according to announcement by Clay Threeton, chairman of the program committee. Gov. Dixon's subject will be "Alabama."

Two full days of entertainment, talks on business and merchandising, a business clinic where merchants may receive and give an exchange of ideas that will improve business. J. W. Mason, of Brent, president of the Alabama Merchants Association, will preside over the various sessions and he states that the prospects are bright for the largest crowd ever attending a convention.

The business clinic will take place Thursday morning with the following Alabama merchants speaking: John G. White, of Uniontown; N. B. Mason, of Marion; O. P. Dailey, of Centreville; C. H. Hembree, Jasper; Will Odom, Millport; U. G. White, Athens; and H. M. Horton, division lighting engineer for the General Electric Company, who will speak on "Merchandising With Light."

A feature of the convention will be the giving away of attendance prizes, two of which will be trips to the New York World's Fair with all expenses paid.

Members of the convention are urged to reach Birmingham on the day and remain for the entire two-day session. The Good Will Luncheon with Clayton Rand, noted business economist, author and editor, will take place at the Tutwiler Hotel.

Mr. Rand is considered one of the best informed men on business and economic affairs of the nation today and is expected to have a special message for Alabama merchants.

A barn dance at the Municipal Auditorium with a hillbilly band and a two-hour floor show will feature the first night's entertainment.

BAPTIST BROTHERHOOD CLASS

Our lesson subject was "Vital Decisions We Must Make." The program was opened by Joe Wood reading our scripture lesson, followed by the song service with music by Miss Reesie Mae Woolley. The lesson was taught by Mr. R. L. Griffin.

Our attendance was off just a bit last Sunday. We hope for every member to be present this coming Sunday, July 23. We hope everyone will come and bring someone else with him. Let's come and be present at 9:45 a.m. You can leave off your coat if you wish to. We will have our big fan to help keep you cool. We have about 40 members on the roll. We would like to see all of them together at one time.

Those present last Sunday were: B. B. Nix, Francis Killingsworth, Travis Killingsworth, S. J. McGaughey, J. L. Bridges, S. R. Woolley, Julian Hardy, R. C. Tucker, F. H. Hardy, R. L. Griffin, John Nix, Mack Nix, John Reid, W. L. Carver, Joe Wood, F. P. Givhan, R. E. Galloway, J. N. Baker. We expect to send out cards to every member of our class that was absent last Sunday, and you may get a card if you were there. That will be only a friendly reminder to be sure and come back. If you would like to have some special song, suggest it and we will do our best on it.

Farmers all over Alabama are talking about phosphate magic, and both farmers and agricultural workers say that this discovery that pastures need phosphate has done more to put this state into the livestock picture than any other development. In the Black Belt, on Sand Mountain, in the Tennessee Valley—in fact in all sections farmers are calling phosphate the magic fertilizer of Alabama.

ANOTHER THING TO LEARN

We have had a school this summer teaching the young folks to drive automobiles. Wish we might have an instructor for the next week to teach us old folks how to use the new dial telephones.

But alas, we are at the age when we must "dig" for all we get. Experience has taught us that "if the finger slips" it is just another entry to charge on the book of experience.

Happily, Mr. Graves has furnished us complete instructions in his advertisement in this issue. The new plan will be easy to learn, and we will soon like it.

Notice: Do not try to talk over the new telephone yet. It is a one-way piece of business until July 27, there or thereabout. I had to learn this by experience.

THE BISHOP TOOTS HANDY

In The Advertiser's "Passing Throng" Wednesday, Bishop Mullin took a sashay among Alabama's legislators. He recorded his observations and impressions of various members in a series of "individual mention" paragraphs.

Here is what he writ under the name of our representative:

"Handy Ellis, veteran member of the lower house from Shelby County, will be heard from at the present session. He was bottled up at the first session; but the bulls are a loose now, and Ellis can take care of himself in any legislative assembly. He would make a good Congressman."

There, there, now, Bishop. That last sentence may be very potent politically. Once you mentioned somebody in Tuscaloosa as congressional possibility. Now you come a tagging Handy. Better mind, lest you put notions into somebody's head. We've got Pete in Congress, you know, and we are not hankering for any political ruckuses in the Sixth District yet awhile.

WAR

The Associated Press says that already the army and navy departments are preparing their budgets for next year, and it is estimated they will ask more than a billion and a half dollars from the next Congress. In one year those two departments of government will need that stupendous sum, and the world not yet at war. To be sure, \$1,600,000,000 is not all that war will cost the United States next year. That will hardly be half the cost, for we have not yet paid for the wars we have fought in the past.

Millions of people are starving, who might be fed with the money now used for armaments, yet every nation on the face of the earth persists in exacting the wealth of its citizens for war purposes. It is the most stupendous waste the human mind can imagine. It is the heaviest governmental burden in an uncivilized world.—Montgomery Advertiser.

SUCCESS STORY

Three years ago a 20-year-old youth walked into the small grocery of one Richard Henderson at Pensacola, Fla. The young man bought a package of cigarets and while puffing on one of them, began a conversation with the storekeeper.

The storekeeper discussed a few trivial topics with his customer, then out of a clear sky asked: "Want to buy this store?"

The young fellow laughed. "Why, I haven't any money. I make \$7 a week, and I had to buy these cigarets on credit." But the storekeeper apparently was bent on selling his business.

"You don't need any money," he told the boy, "Just pay me \$10 a month and the business is yours." The customer accepted the offer. The storekeeper got his hat and walked out from behind the counter.

TIME TO BAIT OUR HOOK!

er.

That was three years ago. The young man, Charles E. Gray, has been operating the store all this time—but he hasn't paid one dime to the former owner, because the owner has never returned.

Business has improved. The stock has been tripled. Young Gray has moved the store to a more desirable location and has married.

One must wonder if the former owner did not intend to vanish after "giving away" his business. After all, it probably had been a burden to him. Mayhap he shook his head as he left, saying to himself: "It was a dirty trick to play on the boy, but it's a relief to get rid of that headache."—Birmingham Age-Herald.

PNEUMONIA TESTS SHOW INCREASE IN 1938

Of the 331 Alabamians whose sputum was tested for pneumonia last year by laboratory experts of the State Department of Health, 184, or slightly more than 55 per cent, were found to have the disease, according to the annual report of Dr. Samuel R. Damon, director of laboratories of the State Department of Health. Nine specimens were found to be unsatisfactory for examination.

Of the 23 types of pneumonia found among these 184 persons, 117, or about three-fifths of the total, were found to have one of four types of the disease.

Last year's total of 331 specimens examined represented an increase of 249, or more than 300 per cent, over the 1937 total of only 82 specimens.

Three soil conservation districts have been approved by farmers and formally declared set up by the state soil conservation committee. They are Piedmont, composed of Clay, Chambers, Coosa, Randolph, and Tallapoosa Counties; Central Alabama, composed of Montgomery, Lowndes, Autauga, Wilcox, and Dallas; and Tombigbee-Warrior, composed of Marion, Walker, Winston, Lamar, and Fayette. Unified programs of soil conservation will be carried out in all of these districts, set up under the state soil conservation district law.

TIRED—WORN OUT ENERGY GONE

That is a terrible condition to allow yourself to get into when it is usually so easy to avoid or correct. CONSTIPATION is the usual cause since the waste accumulation in the intestines causes a certain amount of poisons to become absorbed into the Blood stream and carried to all parts of the Body. If allowed to continue this condition may cause serious complications too numerous to mention. Clean out your system and stimulate your Bowels to a regular, normal and complete elimination. Take Taylor's Vega-Cal, PURELY VEGETABLE, pleasant tasting and recommended for both adults and children. Four sizes—Liquid 35c and 60c, Powder 10c and 25c, at all drug stores.

Montevallo to Have New Dial Office On July 27th

On this date, all telephones here will be changed to dial. From a telephone service standpoint, it places this community on a par with the larger cities of the state.

In future, all calls will be made by number, so you should always refer to your telephone directory for the correct number. To make a call lift your receiver and first listen for the dial tone, a steady, humming sound, which indicates that the equipment is ready for dialing. Immediately on hearing the dial tone, start dialing your number. If after you start dialing, you discover you have made a mistake, or if your finger should slip out of the dial opening before the dial is turned around to the finger stop, then hang up the receiver and start over.

Do not jiggle the receiver hook or turn the dial after you have finished dialing or while you are talking; if you do, it will cut you off and it will be necessary to dial the number

again. Be sure to replace the receiver on the hook when you have finished talking.

If you are on a party line and wish to call some one on the same line with you, dial the number in the regular way, but after you have finished dialing the number and hear the "busy" signal, you should then hang up your receiver. Your bell, as well as the bell of the other party on your line will then ring. When your bell stops ringing you will know the other party has answered and you should at once lift your receiver and begin your conversation. If your bell should continue to ring, you will know that there is no one at the other telephone to answer. To stop your bell from ringing and free the line, remove your receiver from the hook for a moment and then replace it.

To make a long distance call, or to report your telephone out of order and to secure a number not listed in your directory, dial "Operator."

We Deliver

Northeast Alabama Masons To Hold Second Annual Rally At Oneonta

FOUR MILE NEWS

Mrs. J. S. S. Bell

This community lost a dearly beloved member when Mrs. J. S. S. Bell passed away Wednesday night, July 5. If she had lived till July 11, she would have observed her 86th birthday. She had been in bad health for some time and God, in His great mercy, saw fit to give her rest. All of her children except Allen and Armstead were at her bedside at the time of her death.

She was a native Alabamian, being the daughter of Mr. and Mrs. Joseph Carter Milling of Dallas County. Her last fifteen years were spent in the home of her daughter, Mrs. W. C. Potts. She and her husband came here from Ridgewood, Ala., in 1924. She survived her husband by three years and five months.

Surviving Mrs. Bell are three daughters, Mrs. W. C. Potts, Mrs. R. M. Potts of this community, Miss Mary Bell of Birmingham; two sons, Messers, Allen Bell of Blanche, Ala., and Armstead Bell of Ft. McClellan; and fifteen grandchildren.

Funeral services were conducted by Rev. M. G. Ford of Piper, assisted by singers from the Methodist and Baptist Churches. Pallbearers were Howard Milling, Robert Farrington, J. B. Farrington, Owen Richards, Floyd Chism, and Thomas Owen. Interment was in the Smith Cemetery, Rogan of Montevallo in charge.

Out of town people present at the funeral were Mr. and Mrs. Allen Bell and children, of Blanche; Mr. John A. Bell of Ft. McClellan; Miss Mary Bell, Miss Ethel Carver, Miss Evangeline McGuire, Mr. and Mrs. Bob Hillhouse, and Mr. and Mrs. James Potts, of Birmingham; Mr. and Mrs. Lonnie Eaves, Mr. Charlie Rush, of Stanton; Mr. and Mrs. Sammie Hopkins and daughter, Myrtle, Mr. and Mrs. Coleman Rush, Miss Mary Ellen Rush, Mrs. Bob Seymore, Messers, Charlton and Judson Rush, of Plantersville; Mr. and Mrs. M. G. Ford, Mrs. C. W. Turner, Mrs. E. B. Saunders, Mr. Floyd Chism, of Piper; Mr. and Mrs. John Farrington, of Coleanor; and Mr. and Mrs. J. B. Farrington, of Centreville.

Mrs. Allen Bell and children have returned to Blanche, Ala., after a week's visit with Mrs. W. C. Potts and family.

Miss Mary Bell of Hillman Hospital, Birmingham, is spending her vacation at home.

Mr. and Mrs. Budshaw Battles, Mrs. Ralph Dodds and children, and Mrs. Esther Dodds spent Saturday a week ago with Mrs. Mary Richards. On Sunday Mr. and Mrs. Owen Richards, Mrs. Mary Richards, and Mrs. Esther Dodds visited Mrs. Otis Hubbard in Eoline.

Mrs. Russell Potts left for Birmingham Sunday where she will visit with her mother and sister for a few days. Mr. Russell Potts has acquired a state job with the Highway Department at Jasper.

Mr. and Mrs. James Potts and Miss Mary D. Potts of Birmingham spent Saturday night and Sunday with kinfolks here.

Birmingham was the Sunday guest of Mrs. Nina Crowe.

Mrs. Essie B. Cochran and little son, Len, and Miss Mildred Houston, of Calera, were visitors in town Monday morning.

Mrs. P. M. Fancher visited her brother, Mr. Eric McGuire, in Six Mile Sunday afternoon. Misses Alice McGehee and Jane Owsley of Eclectic, are the guests of Miss Frances Nybeck this week.

Miss Frances Nathews has returned to her home after a six weeks study at the University of Alabama, where she has been working on her Master's degree.

Miss Ruth Nathews is visiting friends and relatives in Philadelphia, Pa.

Mrs. R. H. Russell and children, June, Joel, and Jane, returned to their home Saturday after a visit with relatives in North Alabama and Tennessee.

Mrs. Charlotte Peterson is leaving Saturday to visit her sister, Mrs. Ross Baldwin, in Washington, D. C.

When the delegates and visitors to the Second Annual Northeast Alabama Masonic Rally gather in Oneonta on Thursday, July 27, Ency F. Yielding, Grand Master of the Grand Lodge of the State of Alabama, will be present, as will all other Grand Lodge officers of the state.

One of the largest crowds ever to gather in Oneonta is expected to attend this rally. Several crack degree teams from out of the county will be on hand.

The first session of the rally will convene at 2 p.m. at the Community House by special dispensation of the Grand Master, with speeches from Grand Lodge officers. A crack team from Fort Payne will exemplify the E. A. Degree in the afternoon. The Way-Farers Club of Ft. McClellan will then exemplify the M. M. Degree.

At 6:30 dinner will be served in the Community House, where a motion picture in technicolor will be shown of the Masonic Home and its activities in Montgomery. At this time the Grand Master will speak of the Masonic Home and its future plans. The public is invited to attend the picture and this speech. At 8:15 the S. B. Adams Chapter of the DeMolay, from Birmingham, will exemplify their degree.

One thousand or more Masons are expected to attend the rally. All Grand Lodge officers have signified their intention of being present and the District Lecturers have been sent special invitations. All Master Masons are invited to attend. We not only extend a hearty invitation, but urge that all Master Masons attend this rally. We want to make it the biggest and best yet. The merchants and business men have joined in making preparation for this rally and in making you welcome to Oneonta.

Installation ceremonies for the newly elected officers of the local lodge were held last Friday evening, and they, with the committees, are determined that the rally shall become greater each year.

Every Mason, no matter where he lives, has a special invitation to be present at the rally on Thursday, July 27, in Oneonta, Blount County, Ala.

Spring Creek News

Mr. and Mrs. Kyle Tyler of Birmingham were recent visitors of Mr. and Mrs. Roland Lee.

Mr. and Mrs. Whetstone and Mr. and Mrs. Morris Whetstone and son, of Wilton, spent last Sunday with Mr. and Mrs. Will Allen.

Mrs. J. H. Mauldin has returned to Birmingham after visiting her daughter, Mrs. Lawson Ingram, for several weeks.

Mr. Herman Roach, of Panama Canal Zone, and Miss Vida Roach, of Montgomery, are spending their vacation at home with Mr. J. E. Roach and Mr. Alvin Roach.

Miss Elizabeth Thompson of Hueytown spent the week-end with her grandfather, Mr. J. E. Roach.

Miss Mae Ingram of Birmingham was at home for the week-end.

Miss Doris Autrey of Central Park, spent last week with her cousin, Miss Ethel Lois Pate.

Mr. Rush, Mrs. Blalock, and Mr. Cozelle Allen, of Rome, Ga., were Sunday guests of Mr. and Mrs. H. T. Allen.

Mr. and Mrs. R. S. Mauldin and children, Peggy Elizabeth and Bobby, and Miss Margaret Morgan, of Hueytown, were Sunday visitors of Lawson Ingram and family. Bobby stayed for a week's visit.

Mr. and Mrs. Cecil Allen of Rome, Ga., spent Sunday with their parents, Mr. and Mrs. H. T. Allen and Mr. and Mrs. R. L. Pate. Miss Ethel Lois Pate returned to Rome, with them for several weeks visit.

Mr. and Mrs. O. W. Mauldin, Donald Mauldin, and Mrs. Rudy Vanden Bery, of Fairfield, visited Mr. and Mrs. Lawson Ingram Sunday.

The many friends of Miss Lois Alexander are glad to see her back home from the hospital and wish her a quick recovery.

Little Shirley Sue, daughter of Mr. and Mrs. Max Allen, returned home last week from St. Vincent Hospital, where she underwent a tonsilectomy.

Miss Alice Alexander returned to her home in Ensley last Monday.

WILTON NEWS

James Marcus Comer

Mr. James Marcus Comer, age 84, passed away Monday afternoon after an illness of a few days. He is survived by three daughters, Mrs. Mae Moreland, Wilton; Mrs. Raymond Gentry, Piper; and Mrs. L. W. Irwin, Selma; one son, J. E. Comer, of Selma; and twelve grandchildren.

Mr. Comer was a member of the Wilton Baptist Church, where the funeral services were conducted by the pastor, Rev. L. T. Reeves. Interment was in Montevallo Cemetery, Collins of Blocton in charge. One of our best beloved citizens has left us. Our sympathy is extended to the bereaved family.

A dream of six years is about to be realized by the Wilton Boy Scouts and their master, Mr. Hove Splawn, and assistant master, Mr. Aubrey Woolley. This realization is the building of a Scout cabin. The brotherhood organization is sponsoring the erection of the building. Plans are being made by a finance committee composed of B. B. Curry, P. T. Martin, and J. H. Splawn. Since the organization of this group six years ago by Mr. Splawn, many evidences of the good results it produces can be seen in the lives of the individual members. It is a worthwhile organization for the up-building of youth.

A Sunday School study course is being conducted at the Baptist Church every night this week. Rev. L. T. Reeves is teaching the book "A Church Using Its Sunday School." A large number have attended each night.

The W. M. S. met at the church Monday afternoon at 4 o'clock for a program meeting. Mrs. J. S. Ward had charge of the program on "The Great Commission—and Home Missions." Mrs. V. L. Hubbard conducted the devotional. Other members on the program were: Mesdames B. B. Curry, Lance Hubbard, L. T. Reeves, Hattie Sellers, Henry Lucas.

The B. Y. P. U. organizations enjoyed socials last week. The seniors on Monday night at Cedar Crest with a weiner roast; the juniors a hobo hike on Wednesday afternoon, and the intermediates an indoor social at the home of their leader, Miss Wynelle Reeves on Friday night.

On Thursday afternoon, the 27th, the Brotherhood Organization and Boy Scouts will have a ball game. Each team will have a hard time winning over the other.

A social was given recently at the home of Mr. and Mrs. Raymond Conway for their guest, Miss Lucille Stripling of Selma. Those present were Misses Sara Lacey, Margaret Harrison, Margaret Sanderson, Frances Winslett, Grace Edwards, Lucille Stripling, Messers. Preston O'Berry, Leronzo Reeves, and Clay Lucas.

Mr. and Mrs. B. B. Curry and Miss Lavada Ambrose motored to Bessemer on Wednesday of last week.

Mr. Fred Adams has returned from King Memorial Hospital in Selma.

Mr. Robert Adams is in a hospital in St. Louis, Mo.

Mr. J. W. Ward is spending the week in Florida with a group of friends from Montevallo.

Mr. and Mrs. M. R. Hogan, Sr., and Betty Ann motored to Birmingham Sunday afternoon with Mr. Winston Hogan, who was returning to his work after spending the week-end at home. Mr. Leronzo Reeves went with them to Howard College where he has employment for the remainder of the summer.

Mr. Julian Dunaway visited Mr.

Harold Moreland last week-end.

Mrs. Oscar Stripling and Oscar, Jr., of Selma are guests of Mr. and Mrs. Raymond Conway.

Mrs. Dolly Chappell and Misses Nellie Mae and Dorothy Chappell are visiting relatives here this week.

Misses Maybelle Matchen of Albertville and Louise Stansler of Montgomery visited Mr. and Mrs. B. C. Moore last week.

A large representation from our W. M. U. plans to attend the mission study school in Calera today.

Mr. and Mrs. Pat Terry of Blocton visited Mr. and Mrs. Blocker on last week-end.

Over the week-end two ball games were played by our boys and visiting teams. We lost both games. Better luck next time.

We are glad to report the improvement of little Danny Whet-

stone, who was seriously ill last week.

Mr. B. B. Curry left Wednesday morning to resume his duties with the NYA in Bessemer.

Mrs. J. A. Bowden has returned from a recent visit to Vincent.

Mrs. J. C. Gaddy of Sunny South spent two weeks recently with Mr. and Mrs. J. C. Gaddy, Jr.,

Miss Fannie Thomas spent Saturday in Birmingham.

Mr. G. L. Cleveland of York spent the week-end at home.

Mrs. Ruby Milstead of Dolomite spent Monday here with relatives.

Mrs. R. L. Woolley and Miss Alice Nolen spent Monday in Birmingham.

Mrs. Lida Oakley Cleveland and Miss Olive Cleveland of Phoenix, Arizona, visited Mr. and Mrs. B. B. Curry Saturday afternoon.

Miss Marjorie Langston of Mon-

tevallo spent Sunday with Miss Sadie Ward.

Rev. A. B. Canant, Misses Georgia and Jean Canant, and Glenn Canant of Louisville visited Mr. and Mrs. J. A. Sanders last week-end.

Mrs. S. T. Walker of Selma is visiting Mrs. Edith Carothers and Mrs. Matthew Fancher.

Miss Annie Clarence Boggs of Birmingham visited Miss Sherry Watley last week.

Sixty-seven young farmers, most of them farm owners and married, one from each county, are in Auburn at the present time to attend a month short course designed to give them latest information on farming. The course is given annually through the cooperation of the Alabama Polytechnic Institute and Sears, Roebuck and Co. These students will have day classes, that is, spend a half day or more on each subject as terracing, fertilization of crops, before turning to another subject.

Farmers of Alabama will be interested to know that recommendations for changes in the AAA program which they have made in numerous recent meetings in the state are this week being presented in Washington by T. H. Martin, Gordo, chairman of the state agricultural conservation committee. Most farmers wanted only minor changes; were pretty well satisfied with present program if it could be kept for several years.

Mr. Ross Pearson of Baltimore is visiting his brother, Dr. Fred B. Pearson.

Mr. George Ozley and daughter, Georgeann, of Tuscaloosa, spent Sunday with Mrs. Jennie Ozley. Mr. Ozley took his mother home with him for a week's visit.

Mrs. D. W. Boyd spent Tuesday in Birmingham shopping.

Women's Farm Week Program Is Complete

Auburn, Ala. — Elna McGaugh, state home demonstration agent, announced this week that Mrs. Edwin Bevens, Helena, Arkansas, public welfare chairman of the American Federation of Women's Clubs, will speak at the Farm and Home Week exercises on August 1. Dates of the annual Farm and Home Week at the Alabama Polytechnic Institute are from July 31 to August 4, inclusive.

Mrs. Bevens, a native of the delta section of Arkansas where she has had an opportunity to see and know rural and urban conditions, is former chairman of the Rural Urban Cooperative committee of the national women's club. She has also served as state president of the State Federation of Women's Clubs in Arkansas and as director of the Junior Club work in that state.

Miss McGaugh revealed a full program for the annual meeting of the Alabama Council of Home Demonstration Clubs to be held in connection with the Farm and Home Week activities. Mrs. C. T. Butler, New Hope, president of the state demonstration council, will be in charge of the meeting. Mrs. Butler will also address the general assembly of both farmers and farm women on rural organization and leadership.

Other subjects of interest to farm women planned for farm and home week are talks and discussions of developing the people on the land, effect of good land use on the farm home, and development of the rural home and community. Also claiming attention is a talk by Mrs. Edna Nutwell, Mobile County, on the value of curb markets in increasing the income on her farm.

Besides the addresses by Mrs. Bevens, Mrs. Butler, and Mrs. Nutwell, there will be talks during the week by Mrs. Marion W. Spidle, head of the home economics department at Alabama Polytechnic Institute, Miss McGaugh, Mrs. W. C. Lester, Evergreen, Mrs. J. C. Rogers, Montevallo, and Mrs. Jack Fondren, Greensboro.

Performance Under AAA Being Checked

Auburn, Ala.—Work of checking performance under the Agricultural Conservation Program is now under way on Alabama farms.

A. W. Jones, state administrative officer of the Agricultural Adjustment Administration, who expects the check-up to be completed prior to the cotton ginning season, said today that the acreage figures obtained in this work will form the basis for benefit payments.

Jones said that performance supervisors will visit every farm in the

State Farmers Urged To Identify Their Products

Washington, D. C.—Senator John H. Bankhead today called upon Alabama manufacturers to identify their products in a way that they can be instantly recognized by Alabama buyers.

In a letter to more than 1,000 Alabama manufacturers Sen. Bankhead congratulated the Alabama State Chamber of Commerce and other civic organizations upon their efforts to encourage the purpose of Alabama and southern made goods. Senator Bankhead had a part in launching the "Buy Alabama" movement at the annual State Chamber of Commerce meeting in Montgomery last year and made the keynote address of that occasion.

Pointing to the widespread demand that is being created for Alabama and southern goods, the senator urged Alabama manufacturers to devise some method that would enable buyers to identify Alabama and southern made goods at a glance.

Early during inauguration of the movement, the senator made it clear that it was not his contention that Alabama was self sufficient or that interstate trade was unnecessary. However, he declared that Alabamians rightfully should patronize their neighbors in the state and the South because the welfare of each is so closely interwoven with the progress and prosperity of the other.

Senator Bankhead requested Alabama manufacturers to advise him of their reaction to the suggestion and pledged his continued cooperation in the program which he views as the most practical means of stimulating trade, increasing capital for local industrial development, and reducing unemployment in the state.

state. In a number of counties aerial photographs are available. The acreage in these counties will be checked for accuracy from the photographs. In other counties, other measurement methods are used.

The AAA officer also called attention to soil-building practices which can be carried out at this season.

"While most farmers are very busy with their crops during July," Jones said, "many can qualify for payments by sowing peas and other summer legumes. Orders for ground limestone, triple superphosphate, and winter legume seed should be placed as soon as possible."

"The Triple-A is offering lime, phosphate, and winter legume seed this year as grants-of-aid. Orders are taken for the material now for immediate delivery in the fall. As materials arrive freight prepaid in the counties, no cash outlay, other than handling charges in the county, will be necessary at the time of delivery. The cost of the materials will be deducted from soil building payments."

Payments are offered for the use of lime, phosphate, and winter legume seed within soil building goals.

"The advantage of the grant-of-aid plan is that farmers will not have to make financial arrangements for the purchase of materials and at the same time they will have use of money far in advance of receipt of soil-building payments," he said.

Your Electric Dollars Are Worth \$1.67

WITH the cost of government and many other things you pay for much higher than in years past, isn't it a relief to know of at least one thing that has gone down in price with the passing of the years?

On the average, Alabama Power Company residential customers can use 67 per cent more electricity in their homes today for the same amount of money they paid ten years ago. Or, to put it another way, they get today an average of \$1.67 worth of electric service for only \$1.00!

Besides this, out of each dollar paid it by customers, Alabama Power Company pays 15c in taxes (totaling over 3 million dollars annually) which is used by local, state and federal governments for schools, highways, law enforcement, social welfare, and many other things designed to be of benefit to the individual citizen. So he gets not only dependable electric service at a low price, but many indirect benefits as well.

ALABAMA POWER COMPANY

A Private Agency for the Public Good

"Added to individual comfort are the benefits derived from the immense tax paid in by the Alabama Power Company for schools, public welfare and rural development."

—Mrs. J. L. Bishop,
801 Tremont St.,
Selma, Ala.

"Wherever there is wealth owned by individuals or private enterprises, there is revenue for the State in the form of taxes. There has come from this pioneer institution, the Alabama Power Company, in the State of Alabama, a vast amount of money in taxes with which to build roads, run schools and meet many other obligations of a proud and progressive state, to say nothing of the enhanced value of personal property from which the State enjoys an increased taxation due to its electrical service."

—H. A. Greene,
Camp Hill, Ala.

"Besides furnishing excellent service day and night, year in and year out, the Alabama Power Company helps in a great way toward making it possible to educate my child—your child, and your neighbor's child—by contributing over a million dollars annually in taxes just for upkeep of schools."

—Theron Synco,
West 5th Ave.,
Florala, Ala.

"I have five children being educated in the public schools of our State, and when I pay my bill on the first of every month, it is just a contribution to their educational welfare."

—J. W. Boyd,
Route 2,
Montgomery, Ala.

"I see a State marching on in its upward fight to a higher and nobler place in educational ranks aided and greatly so, by the taxes paid our State by the Alabama Power Company, which that switch represents when it cheerfully floods your home with light."

—John Preston,
1419 Attalla Ave.,
Gadsden, Ala.

4-H Club Leadership

By Frank Wyatt, Jr.
Vincent 4-H Club

When we think of 4-H Club leadership we think of our 4-H motto, "To make the Best Better," and 4-H leadership has tried to do this in my community. 4-H Club leadership in my community has also tried to carry out the club pledge, to make every 4-H boy or girl feel that he is to pledge his head to clearer thinking, etc. When 4-H leadership has helped to keep this club pledge, it has certainly been an asset to the community. 4-H leadership has helped every member in my community to become a well groomed boy or girl, thereby making every member a pride to his family, or anyone who is interested in you takes in your good appearance and makes that person want to become a 4-H member. You are also very likely to be repaid in greater success in whatever you undertake, for the simple reason that a well groomed man commands respect.

4-H Leadership and Freedom

4-H Club leadership helps the mass of people to understand more our democratic form of government, to know that we are the only people in the world that commands a respect for our free country in which the people have complete control of the government. Therefore, a great responsibility rests upon each 4-H Club member to become thoroughly educated in order that we may think for ourselves and use our utmost efforts to strengthen and preserve our freedom. 4-H leadership has done most to strengthen our freedom in our community.

Never show a facetious or peevish irritability in small things. Be patient if a friend keeps you

waiting. Bear as long as you can heat or draft, rather than make others uncomfortable. Do not be fussy about your supposed rights. Always cultivate a graceful calculation to never say anything you would be ashamed to utter in the presence of ladies and gentlemen, to learn to check and govern one's self. These are a few characteristics of leadership that 4-H Club leadership encourages in my community.

4-H Leadership Aims

To put duties first, pleasure afterwards, to seek the widest fields of duty, to derive the best part of human cultivation by social contact, to practice courtesy, self-respect, mutual toleration and self-sacrifice for the good of others, to become experienced boys and girls in 4-H Club work, to gain wisdom so as to understand the book of life are some of the aims of 4-H Club leadership in my community.

In any walk of life we must name religion, so this has been one of the chief accomplishments in my community to teach a firm belief of the Christian religion and the obligations to holiness; to employ his time well, to know and keep an everyday religion that loves the duties of our common walk of life, one that makes an honest 4-H boy or girl and teaches his fellow man to work for love, for honor, and for character.

A Helping Hand

4-H Club leadership has helped my community to become more charitable, to never be discouraged in their undertakings, but be diligent and be able to do something for the benefit of mankind, to always lend a helping hand and a kindly word when it is needed, to

People And Land Is Keynote Of Farm And Home Week

Auburn, Ala.—The people and the land and a discussion of the problems of the farm people of Alabama and the soil from which their living comes will be the keynote of the annual Farm and Home Week to be held at the Alabama Polytechnic Institute here July 31 to August 4.

P. O. Davis, director of the Alabama Extension Service, announced also that 15 Alabama farmers and farm women will appear on a special program during the week to give their experiences in helping to solve community problems. This is part of a new program begun last year which allows leading farmers and farm women to tell how they have achieved success on the farm, in the home, and in the community.

Some of the subjects to be covered during the week in carrying out the theme of the People and the Land will be Land Utilization, Land Tenure, Home Economics, Marketing, Rural Organization, and Leadership. Farmers and their wives will also study in tours recent results obtained by the Alabama Experiment Station in crop and livestock production.

State and national speakers are scheduled to address the farm people during the five-day gathering. Among those to be present are Senators John H. Bankhead and Lister Hill, Governor Frank M. Dixon, who will be attending his first official Farm and Home Week, Edward A. O'Neal, president, American Farm Bureau Federation, Dr. L. N. Duncan, president, Alabama Polytechnic Institute, D. P. Trent, Farm Security Administration, Washington, Haygood Patterson, state commissioner of Agriculture, Dean M. J. Funchess, director, Alabama Experiment Station, Mrs. Edwin Bevins, Arkansas farm woman, and others.

help build up true, honest men who will condemn the wrong in friend or foe, men who can tell the truth and look the devil right in the eye, to make both men and women true and courageous leaders who will do their duty, to develop leaders of God. 4-H Club leadership has helped my community to go through life as a band, working hand in hand, to pass compliments between acquaintances and to learn true politeness which makes a person at perfect ease and freedom at any place, to do unto others as you would have them do unto you. To learn to be courteous, agreeable, civil, kind, gentlemanly and womanly at home and then it will become a kind of second nature to be so everywhere. To cultivate kindness and good nature has tried to be one of the accomplishments of 4-H leadership in my community. It has also taught boys and girls to play good honest, healthy games, to make the home as pleasant and lovely as possible, and not to loaf and hang around street corners and idle away their time; not to practice the use of tobacco or strong drinks, to bring out the good traits of youth which will make a gentleman or a lady out of him or her in years to come.

There are numerous other ways in which 4-H leadership has helped my community, but with the advancement of 4-H leadership in my community, I think it will become superior to other communities without this kind of leadership. As a result, people have become well informed on world affairs. The citizens and young people have found out what it is to be able to make a public talk and to talk very intelligently on certain subjects.

Mr. and Mrs. M. P. Jeter, Mesdames Presley and Ashley Jeter were in Demopolis Saturday to attend the funeral of Mr. Jeter's niece, Mrs. Inez Collins Hooten. Miss Virginia Evans returned Tuesday night after a vacation in

Pet or Carnation Milk 6 small or 3 large 21c

Oct. Soap or Powders each 4c

The New Sensation!

Cars Lubricated Under Actual Road Conditions Increases Life of Your Car—Decreases Repair Bills Sway Squeaks Away With AUTO-ROCK

Lubrication Under Actual Driving Conditions

WE—Raise the body off the chassis with contact jack which jack contacts the frame at the center of car.

WE—Pull the spring leaves back into their natural curl—we call it "Temporary Re-arching."

WE—Put the proper lubricants where the ACTUAL WEAR takes place—the highest points of friction.

WE—Do thorough lubrication, which means more than pumping grease through high pressure guns INTO OPEN cavities.

WE—Permit 100 per cent lubrication, apply grease while the car is in motion and while the weight of the body is on the AUTO-ROCK.

WE—Locate that HIDDEN BODY SQUEAK; we detect impaired parts.

WE—Spread spring leaves even inside the covers to actually put lubricants between the leaves—not just smear on the outside.

WE—Free frozen shackles without the aid of a "Crow-Bar." The use of a "Crow-Bar" is DANGEROUS.

WE—Examine and refill shock absorbers which can only be done with AUTO-ROCK. (Optional, at slight additional cost.)

WE—Lubricate "Knee-Action" cars. See it work, it's perfect while the parts are all in motion—"floating action."

WE—Lubricate and free bearings even in WINTER so snow and water won't rust them—also FORCE OLD LUBRICANT OUT AND FRESH LUBRICANT IN.

WE—CHANGE YOUR OIL IN THE CRANK-CASE WITH AUTO-ROCK; all old oils and sediments come out, thus keeping repair bills away.

WE—Make old cars ride like new ones, keep new ones riding like NEW.—We prove it.

WE—Challenge any other means of lubrication; the old stationary method has become obsolete. The AUTO-ROCK method is the only CORRECT WAY TO LUBRICATE YOUR CAR.

At No Extra Cost

This machine will be installed and ready for use Monday, July 24.
